

HALLOWEEN NIGHT

Tanya Boyle Age 14. Second year. Mohill Community School

IT WAS HALLOWEEN night and the moon was full. You could hear the sound of the children happily shouting 'trick or treat' They were laughing, chatting and having loads of fun and you could feel the excitement in the atmosphere. You could hear the children's feet coming in the street and then the doorbells would ring! Some of their costumes were unbelievable! Me and my three friends Chloe, Michelle and Alanna didn't go trick or treating. We just stayed at my house instead and watched some movies. We decided we would walk to Foxes the local shop for some sweets and treats. Just as we were leaving, my Dad called us back and told us a story about four girls who decided to go to Foxes on Halloween night years ago!

He told us : "the girls were walking over the bridge on the way to the shop when they heard strange noises and all of a sudden the ghost of an old woman who died in a car accident on that bridge jumped out in front of them .She wouldn't let them past. The girls ran as fast as they could, but the woman's friend who had also died in the car was waiting at the other end of the bridge!

Their neighbour heard a scream and went running to the bridge, but it was too late .The four girls had vanished and were never seen again." We knew he was only trying to scare us so we left anyway.

We got to the bridge and walked across. It was so dark and we were having so much fun that we didn't realize we were even on the bridge. When we got to the other side we could hear strange noises, so we decided we would jump the fence and go under the bridge to find out what the noise was. While we were under the bridge we kept hearing those weird noises. We were walking over to the wreck of a car when we heard a man calling us. He shouted: ' RUN, RUN AS FAST AS YOU CAN because THE WOMEN IN THE CAR WAKE UP AT MIDNIGHT ON HALLOWEEN NIGHT'. We looked at the time to find that it was 11:59!

We did as he said. We had been running for a few minutes and had reached a bend in the road. Suddenly we heard another strange noise and then something white jumped out of the hedge at us! I panicked .

I could hear the three girls screaming behind me but I was too scared to turn back. I kept running!

I reached the shop and ran in through the door. A car drove in on the street. The three girls got out of the car and came running in laughing! I couldn't understand why they were laughing until I saw my Mam and Dad getting out of the car. It was all part of the plan to scare us. Dad made up the story. He got our neighbour to tell us that the ghosts of the two women were due to wake up soon. It was so dark that I didn't recognise him ,and my Mam was the one who jumped out at us with a white bed sheet over her head. They were all laughing at me for running away and leaving the girls behind.

On the way home as we were driving over the bridge I looked into the field where the wrecked car was, and I saw a hand go out the window of the car to open the door. I screamed and told everybody what I had seen, but they wouldn't believe me! No one knows what I saw that night; it still remains a mystery to a lot of people and also to me!
